

VoIP Services in Seattle, WA

Office address: 20415 72nd Ave S Suite 210, Bldg. 1, Kent, WA 98032

Get Started

Boost Your Business with VoIP

Discover the power of VoIP (Voice over Internet Protocol) to streamline your communication and drive growth. VoIP offers advanced features like call forwarding, voicemail, and call recording—all with the flexibility of internet-based communication.

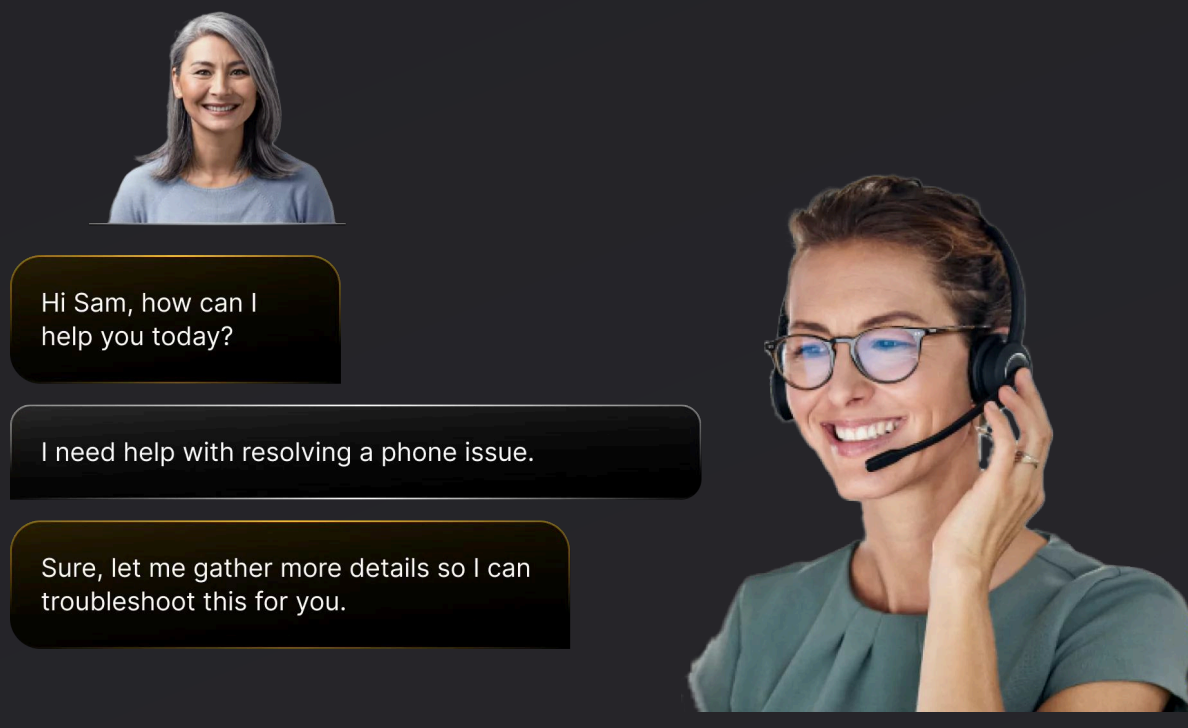

The ultimate unified communications as a service designed to empower your business.

Hosted VoIP

UCaaS

VoIP Integration

Advanced Features

Our hosted VoIP offering is a cost-effective method of implementing a solution for companies that don't have the resources or desire to manage their phone system. BlackPoint manages the system including its hardware and software infrastructure. Your calls are made over the Internet with all the features you expect from a phone system and additional integration into platforms like Microsoft 365, Salesforce, and Microsoft Teams.
